Making Splendid Progress Toward Getting Their Machinery started. J. C. May, resident director of the Bernalillo Oil company, with head juarters in Ft. Wingate, arrived here this morning on the flyer. He ac-companied his wife as far as Albuquer ue on her journey to Chicago, where he will visit with her parents and friends for a short time. They have crected in the past few cays a 72-foot derrick, all the machinery is in place and upon the completion of a second well, which will require about ten days more, they will be ready to bore for oil. There is 1500 feet of bore for oil. There is 1500 feet of 11 5-8-inch casing on the ground, and it is expected no delays will occur after the start is made. C. O. Mc-Carrol has been installed as superin-tendent of the field work, and with the assistance of Mr. Rynorson, as ex-pert driller, and Frank Beard, of Bakersfield, as tool dresser, there is every reason to believe that splendid progress will be made this season in the fields of the Bernaillo Oil com-
